

## CROWN Sliding Doors

### Best views and maximum light...

Our Crown Sliding Patio Doors are key to bringing together the inside of your home with the outside. Engineered for strength and stability, these wide opening doors with their strong yet slim frame design allow you to enjoy the best views and maximum light to flood in.

We have designed our sliding patio doors with a multipoint lock system providing additional security features around the doors to ensure they deliver all round security for peace of mind.

Sliding patio doors can be made up as 2, 3 or 4 panes. For a bigger and wider prospect, consider the stunning view you could create with our Sliding Folding Door which have the option to extend with a number of extra panes – opening up a doorway or perhaps even a whole side of your home.
